PROJECT

CURRENTLY WORKING ON APPLICATIONS

Project Name : Pet Adoption and Health Care Application

- I am working on a full-stack project using React, PHP, and MySQL.
- The project is titled Pet Adoption and Health Care Application.
- It focuses on providing a platform for pet adoption and managing pet health care.
- The application integrates front-end and back-end technologies for a seamless experience.

Project Name : LMS

- I'm working on a mini project called LMS using Firebase, HTML, and JavaScript.
- The project focuses on creating a learning management system.
- It involves user authentication, data storage, and dynamic content rendering.
- I'm excited to apply my skills in front-end and back-end development in this project.
